July 7, 2017

Dear Employment Ontario partner:

Two new datasets are being posted today on the [Employment Ontario Partners' Open Data Portal](#) (the portal) for service providers to review and offer comments on. These datasets are:

- Employment Service (ES) Client Outcomes by Service Delivery Site (2015-2016)
- Employment Service Client Outcomes by Census Division (2015-2016).

Service providers are asked to submit their feedback and suggestions on these two datasets by July 21, 2017, after which the feedback and suggestions will be incorporated into the final draft of these two datasets and they will be approved for public release on the [Employment Ontario Geo Hub](#) and the government-wide [Data Catalogue](#).

Both of these datasets are accompanied by: a technical dictionary that explains every variable in the dataset; and a contextual document that describes the ES program and the review questions asked of ES clients. The data itself is derived from the Employment Ontario Information System-Case Management System (EOIS-CaMS), and includes the following categories of data:

- Closure Reason (i.e., for the ES service plan)
- Client Outcome (at the exit, three-month, six-month, and twelve-month reviews)
- Review Question: Would the client recommend ES to others? (at the exit review)
- Review Question: Is the client still employed with their placement employer? (at the three-month, six-month, and twelve-month reviews)

- Review Question: Did the client's training help prepare the client for future employment? (at the three-month, six-month, and twelve-month reviews).

If you have not yet registered to access the portal, please refer to the [online instructions](#). After July 21, service providers will be notified in advance of the public release of these datasets through updates posted on the portal.

Any questions on using the portal, please [email Rob Coleman](#), research analyst.

Questions or feedback on the Open Data and the ES Client Outcomes datasets and documentation can be posted on the portal.

Sincerely,
(original signed by)

Todd Kilpatrick
